Decent little pocketcard set. Good information on cardiac and pediatrics, as well as a handy difficult airway algorithm. I don't think it is a good size- its a bit wide for most scrub uniform pockets and tall enough to be cumbersome as well.

When I read the 'set' word in the description, I assumed I'd get something more like a pack of cards that would help me (as a non-pro pain sufferer) with pain management. What I received is just TWO two-sided cards covering medications, their application and side-effects, only useful to drug-administering healthcare professionals.

More and more dept. are cracking down on anesthesiologists and crnas taking bags to the OR. These cards r good bec. all the info is condensed into something that can fit into ur scrub pocket and if something spills on them (medicine, body fluid) it won't ruin them because they r stain free. I HIGHLY recommend everyone to invest in these.
