Chapter 7 The Nervous System

Conclusion. The autonomic nervous system comprises of two parts- the sympathetic and parasympathetic nervous system. The sympathetic nervous system activates the fight or flight response during a threat or perceived danger, and the parasympathetic nervous system restores the body to a state of calm.

Differences Between Sympathetic And Parasympathetic

...

Eye movements are controlled by muscles innervated by cranial nerves III, IV and VI. In this chapter, the testing of these cranial nerves will be discussed. The most common symptom of damage to these nerves is double vision. The oculomotor nerve has the additional function of control of the pupil ...
