Dead Space: Catalyst is an excellent book with a really awful opening. The writing isn't bad, don't get me wrong, but it's a bit of a case of the author doing a set up which is far removed from the premise of what the audience came here to enjoy.

that it is not a direct sequel to Martyr. In fact, it shares very little in common with Everson's first book. It takes place after the black marker reverse engineering and the construction of several of the red markers. At least two new red markers are mentioned, which along with the ones on Aegis VII (also mentioned), Titan Station and Uxor, make
