The Evolution

Maoz views the evolution of international relations over the last two centuries as a set of interacting, cooperative, and conflicting networks of states. The networks that emerged are the result of national choice processes about forming or breaking ties with other states.

Our nation's rail infrastructure lacks the capacity to alleviate this crisis. In fact, over the past 75 years, the nation's private railroads have significantly shrunk their networks by abandoning over 100,000 route miles of track. In 1930 the nation's rail network was 249,000 route miles; By 1957, the network had shrunk to
